

Ettore Vittone

Physics Department, University of Torino

electronic devices.

Ettore Vittone is full professor in Experimental Physics at the Physics Department of Torino University, since 2011. He is the coordinator of the Solid State Physics group and is responsible for the laboratory for ion implantation at the Physics Department. He has authored or co-authored more than 200 publications in peer-reviewed journals, mainly in the field of Material Science. His research interests focus on the development of ion beam-based techniques for the functionalization of semiconductor/insulator materials and for the characterization of
